

4th Annual East Coast Risk Control Seminar for Architects, Engineers, and Environmental Professionals

Annual Updates and Tips on Risk Management for Improved Performance and Profitability

Fenway Park Press Room | September 17, 2025

2:00 PM	Arrival / Registration / Refreshments
2:15 PM	Opening Statement & Speaker Introduction Inszone Insurance Services Team
2:30 PM	<p>Session – From Contract to Closeout: Managing Risk Through Strong Contracts & Stakeholder Relationships</p> <p>Catherine Bednar, Partner – Freeman Mathis & Gary, LLP Peter Carroll, Partner – Freeman Mathis & Gary, LLP</p> <p>Successful projects start with strong agreements and end with effective closeout practices—but the path between the two is filled with potential risks. This seminar will explore key contractual considerations and relationship strategies for design and environmental professionals when working with project owners and stakeholders. From the inception of the contract to project completion, attendees will gain insight into common contractual issues, risk mitigation techniques, and best practices to strengthen partnerships while protecting their firms.</p>
3:15 PM	<p>Panel – From Circumstance to Resolution: Strategic Insights Across the Project Lifecycle</p> <p>Catherine Bednar, Partner – Freeman Mathis & Gary, LLP Peter Carroll, Partner – Freeman Mathis & Gary, LLP Jeffrey Alitz, Partner – Freeman Mathis & Gary, LLP Jared Cacciapaglia, Technical Director, Construction Science – RIMKUS Carter Terry, P.E., CWI, Property Practice Leader – RIMKUS Suki Murphy, Senior Practice Leader, Construction Science – RIMKUS</p> <p>This interactive panel will walk through the lifecycle of a project from the moment a circumstance arises through the pre-suit stage, highlighting the decision points and strategies that can make all the difference in protecting your firm. Panelists will share real-world perspectives on evaluating risk, engaging stakeholders, and applying best practices at each stage of the process. Attendees will gain valuable insights into proactive measures and responsive strategies that can help mitigate exposure and achieve better outcomes.</p>
